

DECORAL

AMAZING SURFACE TREATMENT FOR ALUMINUM PROFILES

“Decoral is the right choice when you are looking for a durable and stylish coating solution.”

Decoral coating

- » The coating is durable and protects the aluminum from abrasion.
- » Decoral is the right choice when you are looking for a durable and stylish coating solution.
- » With Decoral the surface can imitate stone, wood, or almost any desired pattern
- » Dirt and stains can be removed from the surfaces by washing.

Features of the Decoral coating

- » The coating withstands water, humidity and UV radiation
- » Wood-looking aluminum profiles can replace heavy wood structures and therefore reduce fire loads.
- » Decoral-coated products can also be recycled.
- » The coating can be applied up to 6.8 m-long profiles.
